Prevent Forest Fires - It Pays!

An average of 7,300 acres of woodland are burned over by forest fires in New Hampshire each year destroying many thousand dollars worth of property of all description. It costs many additional thousands of dollars and requires valuable man hours, taken from other essential work, to extinguish them. These losses affect the personal fortunes of the owners, and town and state economies. Everyone loses because of them.

Analysis of fire causes reveals the fact that more than 98 percent of all forest fires are, consistently, the result of human carelessness and are preventable.

We have been extremely fortunate during the past few years. Favorable fire weather and war time restrictions on travel which kept people off the highways and out of the woods have aided materially in reducing fire risks, keeping fires fewer and fire losses low.

We now face changed conditions. People can travel freely. Their love for travel and the freedom of the woods will bring them out in ever increasing numbers. This will step up the fire risks materially. The accelerated cutting of the war years has resulted in additional thousands of slash acres. These factors, combined with a possible dry season and human carelessness could easily produce a catastrophe. Everyone must, consequently, be on his guard. He should

1. Be careful with fire or when smoking in or near woodlands.

2. Cooperate with the local forest fire warden and his deputies by

- a. Abiding cheerfully with whatever restrictions it may be necessary to impose. They are intended only to be helpful.

- b. Securing permits to burn debris when the ground is not covered with snow.
- c. Seeing that others comply with the requirements.
- d. Promptly coming to the Warden's assistance when needed.

If these few fundamental practices are followed it will be possible to PREVENT a large proportion of FOREST FIRES from starting. That PAYS!

SUPERINTENDENT'S REPORT

To the School Board and Citizens of Grantham:

I am pleased to submit herewith a short report on the doings of the Grantham School Board and myself. I have been in this area going on my twenty-first year and have had the Grantham Schools all of the time with the exception of five years, 1933 - 1938, when the schools were supervised by Mr. Fuller.

It so happens that each member of the present School Board has, at some time or other, been a student in school when I have been Superintendent. It is a pleasure to work with these young women. At this point I would like to make a statement commending the very fine cooperation and consideration for the schools which was manifested in every act of the former School Board members. One of these, Mrs. Hastings, has been a member of the School Board since I have known the schools. Mrs. Walker and Mrs. Kimball have served each for a long time although not all of the time I have known Grantham.

All of our teachers are new to their positions this year. While Mrs. Pillsbury was in the schools last year, she was at North Grantham and on account of winter travel requested to be in the grammar room in the village school. Mrs. Gladys Walker, whom everyone knows was on the school committee a long time, is now a teacher in the primary room and like Mrs. Pillsbury is doing a good piece of work. We have at North Grantham Miss Lilla Tuttle, a teacher of long and varied experience.

It may be well to make a record here that both of the buildings were entirely redecorated in both classrooms and hallways. This adds a good deal to the

lighting and appearance of the class rooms. I hope these will not become so smoked and blackened in such a short period of time again.

The enrollment in the Grantham schools seems to decline. There are about fifty enrolled this year. It so happens that thirty of these have registered in the village school which will probably insure us of State Aid for three teachers. There seems to be a great aversion in Grantham toward transportation of pupils but where the road is reasonably safe there is not as much danger for children who are transported as there is for those who walk along the state road a mile or two. In addition, eight grades regardless of the number of pupils, is too much of a teaching span for one person. It would seem to me, therefore, that the North Grantham school should have only six grades, if we keep it open at all.

This report includes on other pages the pupils who are now enrolled in neighboring high schools as well as the graduates of last June. You will notice that there are eighteen pupils in high school for whom tuition will be paid. If these continue next year with the exception of three or four who will graduate, together with some of the present eighth graders who will enter high school, our appropriation for high school tuition must be increased, as has been provided for in the budget. Attention is called also to the report of Miss Donovan on the condition of the schools of a year ago. Similar conditions prevail now but there is no alarming condition nor are there many under privileged children here.

In conclusion I wish to express appreciation for the spirit of helpfulness that has prevailed on the part of

the citizens, teachers and pupils and especially members
of the School Board.

Respectfully submitted,
WM. J. ENGLISH,
Superintendent of Schools.
